software development

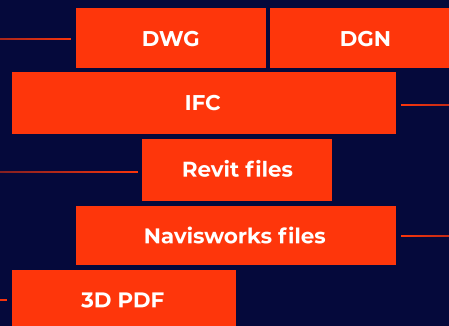

COMPLETE INTEROPERABILITY FOR CAD & BIM

WHAT THE ODA PLATFORM CAN DO FOR YOU

The industry standard for **DWG**
and **DGN** interoperability

Work with **Autodesk® Revit®**
data without dependencies on
the native Revit application

Publish and share **CAD & BIM**
data using ISO standard **PRC**

Cutting edge support for open
BIM standards from
buildingSMART International

Work with **Autodesk®**
Navisworks® data without
dependencies on the native
Navisworks application

COLLABORATE

View, inspect and
collaborate on 3D model
review in the cloud

VISUALIZE

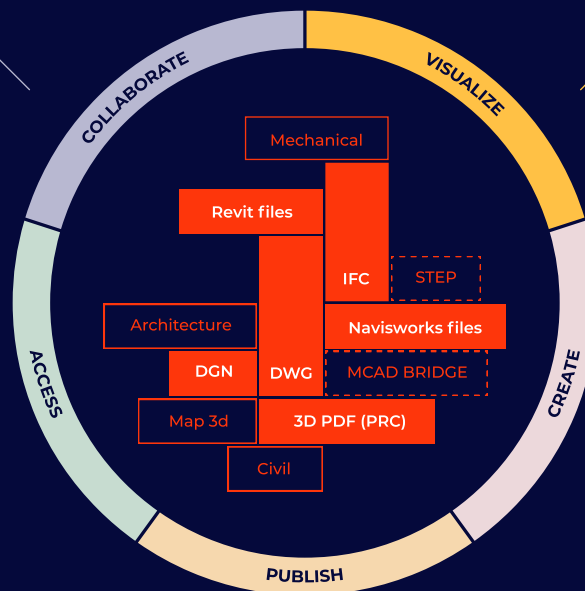

Visualize and manipulate
complex 3D models
on desktop & mobile

ACCESS

Access model structure,
properties, geometry and
meta-data

CREATE

Create and edit complex
CAD and BIM models with
powerful, object-oriented
APIs

PUBLISH

Publish any CAD or BIM
model to 2D or 3D PDF

Open Design Alliance

ODA is a non-profit technology consortium

Our goal is to bring **Innovative Interoperability** to the engineering software industry through high-quality, affordable toolkits for developers.

23

Years
of experience

90

Full-time
engineers

1200

Members companies
worldwide

100%

Transparent pricing
& free tech support

Focus on adding value for your clients

Interoperability
is our responsibility

Friendly Licensing

unlimited deployment,
fixed annual cost,
SaaS-friendly

Have confidence

in your interoperability
solutions
